Web Developers

Julieta Petran

Summary:

Julieta is a full stack web developer with seven years' experience in designing and developing websites and web applications.

Skills:

- Web design principals
- HTML
- JavaScript
- ASP.Net
- CSS
- PHP
- SQL
- MySQL

Demonstrated Capabilities:

- Design user centric web applications
- Build and develop database integrated websites.
- Conduct unit and functional testing.
- Migrate web applications through change management procedures from development, testing and production environments.

Availability:

Part time. Available 22.8 hours per week (3 working days per week).

Daily Rate:

\$800

Task Name	Organise, implement and close an Information Communications Technology (ICT) project		
National unit/s code	ICTPMG501	National unit/s title	Manage ICT projects (Release 1)
National qualification code	ICT50118	National qualification title	Diploma of information Technology
RMIT Program code	C5395	RMIT Course code	COSC7370C

Maximiliano Rider

Summary:

Maximiliano is a front-end web developer with four years' experience in designing and developing websites.

Skills:

- Web design principals
- HTML
- JavaScript
- ASP.Net
- CSS

Demonstrated Capabilities:

- Design and develop web pages.
- Convert design wireframes into website elements
- Migrate static web sites through change management procedures from development, testing and production environments.

Availability:

Full time. 38 hours per week.

Daily Rate:

\$650

Task Name	Organise, implement and close an Information Communications Technology (ICT) project		
National unit/s code	ICTPMG501	National unit/s title	Manage ICT projects (Release 1)
National qualification code	ICT50118	National qualification title	Diploma of information Technology
RMIT Program code	C5395	RMIT Course code	COSC7370C

Raja Langley

Summary:

Raja is a back-end web developer with five years' experience in designing and developing applications web.

Skills:

- HTML
- JavaScript
- ASP.Net
- CSS
- PHP
- SQL
- MySQL

Demonstrated Capabilities:

- Build and develop database integrated websites.
- Conduct unit and functional testing.
- Migrate web applications through change management procedures from development, testing and production environments.

Availability:

Full time. 38 hours per week.

Daily Rate:

\$650

Task Name	Organise, implement and close an Information Communications Technology (ICT) project		
National unit/s code	ICTPMG501	National unit/s title	Manage ICT projects (Release 1)
National qualification code	ICT50118	National qualification title	Diploma of information Technology
RMIT Program code	C5395	RMIT Course code	COSC7370C

Business Analysts

Toygar Viteri

Summary:

Toygar has worked as a Business Analyst for the last three years in the financial industry.

Skills:

- Communication and consultation with stakeholders
- Change management
- Problem solving
- Critical thinking
- Business Analysis Methods; Agile Business Analysis, Business Process Modelling Notation.

Demonstrated Capabilities:

- Lead and facilitate collaborate with stakeholders in both discovery sessions and requirements review sessions.
- Stakeholder analysis
- Functional Requirements specification
- Wireframe, workflows and other visual documentation
- Data model documentation
- Test plans, Test Cases, and User Acceptance Test Plans

Availability:

Full time. 38 hours per week. Holidays booked over Easter (two weeks) and mid to end of November (two weeks).

Daily Rate:

\$800

Task Name	Organise, implement and close an Information Communications Technology (ICT) project		
National unit/s code	ICTPMG501	National unit/s title	Manage ICT projects (Release 1)
National qualification code	ICT50118	National qualification title	Diploma of information Technology
RMIT Program code	C5395	RMIT Course code	COSC7370C

Zaynab Rinne

Summary:

Zaynab has six years of experience as Business Analyst.

Skills:

- Communication and consultation with stakeholders
- Problem solving
- Critical thinking
- Business Analysis Techniques; Business Analyst Blueprint
- Business Analysis Methods; Six Sigma, Rational Unified Process.

Demonstrated Capabilities:

- Lead and facilitate collaborate with stakeholders
- Business Analysis Plan
- Scope Statement specifications (feasibility analysis)
- Functional Requirements specification
- Wireframe, workflows and other visual documentation
- Data model documentation
- Test plans, Test Cases, and User Acceptance Test Plans

Availability:

Part time. Available 22.8 hours per week (3 working days per week).

Daily Rate:

\$800

Task Name	Organise, implement and close an Information Communications Technology (ICT) project		
National unit/s code	ICTPMG501	National unit/s title	Manage ICT projects (Release 1)
National qualification code	ICT50118	National qualification title	Diploma of information Technology
RMIT Program code	C5395	RMIT Course code	COSC7370C

Test Analysts

Anna Todaro

Summary:

Anna has worked as a test analyst for eight years.

Skills:

- Attention to detail
- Ability to see the big picture
- Planning and organizational skills
- Proficiency in document and report writing
- Ability to work in a team
- Awareness of Software Development Life Cycle
- Logical and critical thinking skills

Demonstrated Capabilities:

- Carried out data migration testing activities
- Researched automated testing tools for regression testing
- Worked with users to develop User Acceptance Testing procedures and strategies
- Monitored & resolved defects in issues list
- Documented & communicated test results accurately & efficiently

Availability:

Full time. 38 hours per week. Booked on another project March 29th until Friday 9th April.

Daily Rate:

\$600

Task Name	Organise, implement and close an Information Communications Technology (ICT) project		
National unit/s code	ICTPMG501	National unit/s title	Manage ICT projects (Release 1)
National qualification code	ICT50118	National qualification title	Diploma of information Technology
RMIT Program code	C5395	RMIT Course code	COSC7370C

Otso Jonsson

Summary:

Otso has three years' experience as a Test Analyst.

Skills:

- Planning and organizational skills
- Proficiency in document and report writing
- Ability to work in a team
- Logical and critical thinking skills

Demonstrated Capabilities:

- Performed testing activities based on test plans
- Reviewed the project related documents such as requirements, specifications and technical designs
- Created test cases to conduct the positive and negative testing of the application, interacted with the business analysts and developers to resolve the technical issues to meet the client's requirement for a better quality software product.
- Created and maintained test cases
- Documented the test results with test status and defect information.
- Performed regression testing after retesting the defects to make sure the fixes did not have any negative impact on the application.

Availability:

Full time.

Daily Rate:

\$600

Task Name	Organise, implement and close an Information Communications Technology (ICT) project		
National unit/s code	ICTPMG501	National unit/s title	Manage ICT projects (Release 1)
National qualification code	ICT50118	National qualification title	Diploma of information Technology
RMIT Program code	C5395	RMIT Course code	COSC7370C

Database/Datawarehouse Developer

Venetia Bláha

Summary:

Venetia is a “jack of all trades” in databases, with ten years’ experience in MySQL, Oracle, SQL Server, Sybase, Informix. With keenly attuned problem-solving capabilities, there are few and far between database issues that Venetia cannot resolve.

Skills:

- Applying technical design and development skills to the creation of database programs
- Analyzing existing databases and data needs of clients to develop effective systems
- Using knowledge of specific programming languages and codes
- Following implementation processes for new databases
- Troubleshooting and providing solutions for any bugs in new database applications
- Advanced SQL skills

Demonstrated Capabilities:

- Created T-SQL objects & scripts used to maintain data integrity across all databases throughout database servers (Stored Procedures, Triggers, Functions).
- Developed & Maintained database, maintenance routes and safeguards (procedures, scripts, function, etc ..) to increase performance. Established robust techniques raw data exchanges, built & maintained SSRS, ETL package
- Designed, developed, tested and implemented relational databases and procedural database code
- Performed quality assurance and testing of SQL server environment
- Assisted clients in using implemented software projects
- Created analysis and design documents as part of major project to migrate DB2 tables to Oracle.
- Produced and maintained ERDs and relevant documents to comply with DHS' Software Development Life Cycle

Task Name	Organise, implement and close an Information Communications Technology (ICT) project		
National unit/s code	ICTPMG501	National unit/s title	Manage ICT projects (Release 1)

National unit/s code	ICTPMG501	National unit/s title	Manage ICT projects (Release 1)
National qualification code	ICT50118	National qualification title	Diploma of information Technology
RMIT Program code	C5395	RMIT Course code	COSC7370C

Orietta Knopf

Summary:

Orietta has dedicated seven years as a Salesforce Developer.

Skills:

- Analytical skills – an analytical mindset to identify a user’s needs and to design and produce solutions to issues
- Communication skills – to communicate complex information effectively to people who don’t have computer knowledge and to answer questions as they arise, giving clear instructions
- Teamwork – ability to work in teams, maintaining a professional and helpful demeanour toward colleagues
- Time management – work to business timelines and schedules, working on multiple projects while ensuring the work produced meets best practices
- Problem-solving abilities – identify and troubleshoot issues and faults as they arise
- Programming languages (JavaScript, HTML5, CSS)
- Development technologies (APEX, Visualforce, migration tools, SOQL, web services)
- Web development tools (Eclipse IDE, Git, Sublime)

Demonstrated Capabilities:

- Developed custom user interface and business applications on the Salesforce.com platform.
- Leveraged clients existing IT framework/CRM system for better data visibility and system integration.
- Assisted in developing Project Scope, Business Requirements and Functional Requirements with internal team and clients.
- Facilitated the creation of test scenarios and test scripts.
- Steering the gamut of tasks including Module Design & Implementation, Requirement Mapping, assessing and mapping Business Processes with SAP functionality and Documentation, Customising SAP Modules, Testing/ Integration Testing with other modules & platforms.

Task Name	Organise, implement and close an Information Communications Technology (ICT) project		
National unit/s code	ICTPMG501	National unit/s title	Manage ICT projects (Release 1)
National qualification code	ICT50118	National qualification title	Diploma of information Technology
RMIT Program code	C5395	RMIT Course code	COSC7370C

- Additionally, assisting in project proposal development as well as Super User & End User Training. Supervising the integration of Front-end Applications.
- Email- to-Case Set Up
- Developed and implemented dashboards to show pipeline and vertical penetrations.
- Managed and administered email marketing reporting and metrics analysis
- Auto Response rules, Assignment Rules and Escalation Rules

Availability:

Part time as working on existing project 3 days a week. 16 hours per week.

Daily Rate:

\$800
